## P.6 My favourite job

Everyone has their own dream job. My dream job is to be a dessert chef. Dessert chefs make desserts in a kitchen. They need to prepare ingredients before they make the desserts. I think dessert chefs can bring happiness to people because they use their heart to make desserts. When people eat the desserts, they will feel warm and happy.

I am artistic and creative. I think I am capable of being a dessert chef. I can't be a dessert chef unless I can cook well. I am good at making handicrafts. This can help me to design different desserts. I believe a dessert chef is like an angel because angels make people blissful! Why don't I practise more now? Perhaps I can be an "angel".

If I want to be a dessert chef, I should read more books about desserts and try to make them at home. Perhaps I can go to other places in the world and taste different desserts. Then I can make a lot of special desserts.

### 6A Li Mei Sen, Mabel

My favourite job is a teacher. Teachers work in a school. Teachers have to work five days a week. Teachers need to teach students different subjects, for example, Maths and Art. Also, they help students with their homework. However, I will be angry if students are too naughty.

I am artistic, attentive, calm, helpful and smart. I am good at Maths and Art too. I like talking with children because they are naive. I always play Maths games with them. I think I can do this job because I am smart and artistic. I want to be a teacher when I grow up because it is meaningful and challenging. I like this job because I like children very much.

### 6B Leung Hiu Ting, Mavis

I want to be a school librarian when I grow up. A school librarian puts books on the bookshelves in the library. A school librarian also has to help people borrow and return books.

If I want to be a school librarian, I have to be helpful and organized. I cannot be a school librarian unless I am hard-working and friendly.

To get myself prepared for the job, I can learn to tidy my room and help my teachers and classmates at school.

### 6C Yam Tsz Ying, Doris

My favourite job is a writer. A writer has to work in an office. A writer has to work seven days a week and has to type on a computer. A writer also needs to write articles and stories in newspapers or magazines.

I think I am organized and creative. I am attentive too. I always like to think about different kinds of things and I am good at writing. I like writing and I hope people can read more good books so I think maybe I can be a writer because it is interesting and meaningful. I like this job.

### 6D Gao Yue Ting, Alan

I want to be a doctor when I grow up. I think it is a meaningful job.

A doctor works in a hospital. She has to work seven days a week. She sometimes works at night. She has to wear a uniform. She helps sick people and takes care of them. She needs to be careful when she works.

I think I can do this job because I am brave, careful and cooperative. I am organized too. I always take care of people. I like helping others.

If I want to be a doctor, I must be hard-working.
